HARD DAYS

Color in your progress

100 squares. Each one is 1% of what you started with. Watching it fill up is a lot more fun than a spreadsheet.

Your picture

Started with $

e.g. 25000

Paid off so far $

e.g. 4000

Type the amount you started with, or just tap squares to color them in.

Tap a square to color it yourself, for a milestone or just because. Saved only in this browser on this device.

Make it a family thing

Let a kid color the squares on paper each payday. Pick a small, cheap reward at 25%, 50% and 75%: a pancake dinner, a movie night at home, a park day.
